We're pleased to present to you this year's Annual Drinking Water Quality Report (also known as the Consumer Confidence Report [CCR]). This report provides a snapshot of last year's water quality. Included are details about the source of your water, any compounds detected during monitoring, and how it compares to standards set by regulatory agencies. Our constant goal is to provide you with a safe and dependable supply of drinking water. We are committed to providing you with this information.

When you turn on your tap, consider the source...

The water that is used by this system is surface water that is purchased from the City of Graham. Please read the attached City of Graham's 2006 CCR for the location of their source(s).

Violations that our water system received for the report year:
